29 Oct 2017

Dear Parish Council,

Once again it must be reported that TVP continue to abuse local residents environment in Oxford Road as well as using parking spaces at Fairfax shops.

The Royal Town Planning Institute has confirmed that the legal agreement between TVP and CDC is correct and TVP have to comply with paras 2,9 & 11 which are mandatory actions.

The Monitoring Officers report indicates the blame for the not holding the P.P.F meetings was a whole council decision to circumvent local parishioners from expressing their views on parking problems. No reasons have been transmitted to any PPF nominated members and contradicts Mr Billingtons AGM comments that it was his fault and took full responsibility for its demise.

Those council members who agreed to such an action have deliberately disenfranchised its parishioners and changed the nature of a parish council to a political cartel.

Such a change is against the Code of Practice who should have integrity and honest, not be seen as council bullies to its parishioners. It seems Mr Billington's now dictatorial and autocratic culture is contrary to Brent Prestiges mantra of keeping politics out of council business.

To reinforce this, it seems a council decision to deny parishioners the legal right to examine the minutes has been suppressed deliberately presumably by the council. Such an action is illegal as the minutes when approved are "legal documents" and the Parish Clerk has the responsibility to ensure the minutes are available to the public. The Clerks failure to observe a legal obligation is malpractice and misconduct in public office.

Checks recently carried out in Kedlington library revealed the last minutes deposited dated to March 2017 and no further minutes were available on 24 Oct 2017.

Mr Billington your dictatorial chairmanship is not wanted in Gosford & Water Eaton. It is suggested you go back to Kedlington and the mess you have created in Kedlington centre.

Yours sincerely

M.O Makepeace.
