Plan page and paragraph

Comment

This is an excellent plan for Southwick. It has been well thought through and takes into consideration the needs and asks of the community.

The plan will keep Southwick separate and distinctive from Trowbridge and help Southwick retain its village identity and feel.

The plan also protects Southwick's open green spaces and has given significant consideration to nature's habitat and wild life.

The plan is sustainable, delivering a quantum of affordable housing that the village needs. The overall level of housing proposed is to a scale with Southwick being a village and will not impact existing schools and infrastructure.

The plan has also factored in the potential for future climate change and makes best case a near derelict brownfield site.

I really cannot think of any negatives.
